

Karmin Announces Closing of Previously Announced Brokered Private Placement

NOT FOR DISTRIBUTION TO UNITED STATES NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES

Toronto, Ontario, April 5, 2012 – Further to its news release dated March 26, 2012, Karmin Exploration Inc. (“**Karmin**”) (TSXV: KAR) announced the closing of its brokered private placement (the “**Private Placement**”) by KALLPA Securities Sociedad Agente de Bolsa S.A. (the “**Agent**”).

In connection with the Private Placement, an aggregate of 5,959,992 common shares in the capital of Karmin (the “**Common Shares**”) were issued to individuals resident in Peru, Chile, Colombia, the Cayman Islands and the Bahamas at a price of US\$0.77 per Common Share for gross proceeds of US\$4,589,193.84. The Agent received a cash commission equal to 7% of the gross proceeds of the Private Placement.

As previously disclosed, the proceeds of the Private Placement are intended to be used (i) to fund exploration work on Karmin’s Cushuro Gold Project in the Alto Chicama gold district of northern Peru; (ii) to fund exploration work on Karmin’s Aripuanã Gold-Silver Project; (iii) to satisfy Karmin’s obligation to pay an aggregate amount of \$2,500,000 to Alberto Aurelio Arias Dávila (“**Arias**”), payable in two equal instalments, with the first payable on the Closing Date and the second on the date which is 12 months after the Closing Date, pursuant to the terms of the previously announced purchase agreement between Karmin and Arias entered into on November 22, 2011; and (iv) for general corporate purposes.

About Karmin

The common shares of Karmin are listed on the TSX Venture Exchange and trade under the symbol “KAR”. The principal business of Karmin is to acquire, explore and develop resource properties.

Karmin owns 100% of the 25-square-kilometre Cushuro Gold Project located in the world-class Alto Chicama gold-mining district of northern Peru.

Karmin owns 100% of the Aripuanã Gold-Silver Project, which encompasses the gold and silver mineralization associated with near-surface oxidized portions of numerous massive-sulphide deposits in the 820-square-kilometre Aripuanã Zinc Project in north-western Brazil.

Karmin owns 30% of the Aripuanã Zinc Project, one of the largest undeveloped zinc projects in Brazil. The Aripuanã Zinc Project covers a mineralized massive-sulphide district that includes five areas of mineralization (Ambrex, Arex, Babacu, Massaranduba and Mocoto) over a 25-kilometre strike length. A technical report completed by AMEC International (Chile) S.A. in accordance with National Instrument 43-101-*Standards of Disclosure for Mineral Projects* in 2007 (available on SEDAR, www.sedar.com) states that the Ambrex deposit has indicated resources of 18.3 million tonnes grading 4.0% zinc, 1.5% lead, 0.18 g/t gold and 35.6 g/t silver. The Arex deposit has indicated resources of 9.4 million tonnes grading 2.5% zinc, 1.0% lead, 0.45 g/t gold and 34.7 g/t silver. Votorantim owns 70% of the Aripuanã zinc project, but assumes 100% of the project costs until the completion of a bankable feasibility study

Disclaimer Relating to Forward-Looking Information

This news release contains forward-looking statements that are based on the belief of management and reflect Karmin's current expectations. Forward-looking statements include, but are not limited to, possible events and statements. The words "plans," "expects," "is expected," "scheduled," "estimates," "forecasts," "projects," "intends," "anticipates," or "believes," or variations of such words and phrases or statements that certain actions, events or results "may," "could," "would," "might," or "will be taken," "occur," and similar expressions identify forward-looking statements. The forward-looking statements and information in this press release include, but are not limited to, information relating to the business plans of Karmin and the use of proceeds from the Offering. Such statements and information reflect the current view of Karmin with respect to risks and uncertainties that may cause actual results to differ materially from those contemplated in those forward-looking statements and information.

Such statements are not historical facts. Readers are cautioned not to place undue reliance on forward-looking statements, as there can be no assurance that the plans, intentions or expectations upon which they are based will occur. By their nature, forward-looking statements involve numerous assumptions, known and unknown risks and uncertainties, both general and specific, that contribute to the possibility that the predictions, forecasts, projections in the forward-looking statements will not occur, and that actual performance and results in future periods may differ materially from any estimates or projections of future performance or results expressed or implied by such forward-looking statements.

The Cushuro Gold Project, the Aripuanã Gold-Silver Project and the Aripuanã Zinc Project and the land they relate to are exploration properties only. Accordingly, there are a number of important factors that could cause Karmin's actual results to differ materially from those indicated or implied by forward-looking statements and information. Such factors include, among others, the timing and content of work programs, results of the development of mineral properties, the interpretation of drilling results and other geological data, the uncertainties of resource and reserve estimates, receipt and security of mineral property titles, receipt of licenses to conduct mining activities, project cost overruns or unanticipated costs and expenses, fluctuations in metal prices and general market and industry conditions, changes in national and local government legislation, taxation, controls, policies and regulations, the security of personnel and assets, and political or economic developments in Canada, Peru and Brazil, operating or technical difficulties in connection with mining or development activities, employee relations, the speculative nature of mineral exploration and development and the risks and hazards associated with the business of mineral exploration, development and mining, including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins and flooding.

Karmin cautions that the foregoing list of material factors is not exhaustive. When relying on Karmin's forward-looking statements and information to make decisions, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Karmin has assumed a certain progression of events which may not be realized. It has also assumed that the material factors referred to in the previous paragraph will not cause such forward-looking statements and information to differ materially from actual results or events. However, the list of these factors is not exhaustive and is subject to change and there can be no assurance that such assumptions will reflect the actual outcome of such items or factors.

The forward-looking statements contained in this news release are made as of the date of this news release. Readers should not place undue importance on forward-looking information and should not rely upon this information as of any other date. Except as required by law, Karmin disclaims any intention and assumes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Additionally, Karmin undertakes no obligation to comment on the expectations of, or statements made by, third parties in respect of the matters discussed above.

The TSX Venture Exchange has not reviewed and does not accept responsibility for the adequacy or accuracy of this news release.
